

blossoms OF HOPE

A Garden Gate Ranch sexual abuse support group

Blossoms of Hope is a support group for adult, female survivors of sexual abuse. Blossoms of Hope seeks to unite survivors with similar stories in a safe and non-judgmental environment in order to foster connection and empowerment in the lives of all participants.

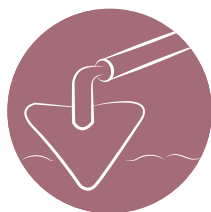

Through the love and leading of Christ, Blossoms of Hope will educate each woman on applicable topics related to her sexual abuse and her journey toward healing. We pray that, through this group, every participant would unlock her potential in Christ and embrace long-lasting freedom.

FOUNDATIONS FOR HOPE

SURVEYING THE LAND

Defining sexual abuse and exploring its impact in order to foster an environment in which survivors can break through discomfort and silence and acknowledge the truth of their abuse.

BREAKING UP DESOLATE GROUND

Digging into the personal impact of sexual abuse on one's mind, body, and spirit. Survivors will be given the space to grieve what has been lost and begin the process of pursuing forgiveness.

NURTURING BLOSSOMS

Encourages survivors to walk in true freedom by identifying areas of their life that are still negatively affected by their experience of sexual abuse. Explored topics include self-care, personal and relational safety, breaking generational cycles, and more.

EVER-BLOOMING PURPOSE

Celebrates the restoration and hope given to each survivor's story as a result of her commitment to pursue healing. Survivors will be given the space to conceptualize their stories with the understanding that they are more than their abuse and are uniquely designed for a purpose.
