

Iowa Black Doula Collective

The Iowa Black Doula Collective (IBDC) was created to open access and provide quality education that centers Black bodies, families, and communities throughout Iowa.

What we do...

1

IBDC promotes holistic and evidence-based care to empower Black client's reproductive health, fertility, birth, and postpartum journeys.

2

IBDC increases access of Iowans to trained doulas who center and advocate for Black birthing people and marginalized populations.

3

IBDC supports doulas training through DONA International certification, mentorship, and additional certifications.

4

IBDC connects with community, state and national partners to provide education, outreach, and understanding of Black maternal health.
