

## Plan Design

The Iowa Dental Wellness Plan (DWP) allows members to get dental services right away including preventive, emergency and stabilization services. Additional services must be earned by seeing a dentist every 6-12 months (see back for more detail).

## Dental Home

Having a regular dentist is very important!

Dentists are more likely to see reliable patients. Make sure to keep all appointments or give as much notice as possible if you need to cancel.

To keep your gums and teeth healthy, it's important to follow through with all treatment recommended by your dentist.

Be involved in knowing your benefits and understanding your plan. You are in charge of keeping the benefits you have earned by seeing your dentist every year.

## Going to the Dentist

- Bring your ID card
- Be on time
- Bring a list of medications you take
- Share any concerns you have
- Follow all your dentist's instructions

## Did you know...

- Smiles make a person appear more attractive, outgoing and confident!
- Smiles are contagious!
- Smiles relieve stress!
- Smiles boost your immune system!
- When your mouth is healthy, your body is healthier!

## Level 2: Enhanced

A second dental exam from your dentist will earn you additional dental services such as fillings, extractions, and root canals.

## Level 3: Enhanced Plus

A third exam allows you to receive even more services such as crowns, bridges and dentures. Your dentist will make sure you qualify for these services by submitting a prior approval.

## Level 4: Maintenance

If you do not receive a dental exam every year, you will lose any earned benefits and start back over at Core.

**TAKE CARE OF YOUR SMILE AND KEEP YOUR EARNED BENEFITS!**

**SEE YOUR DENTIST EVERY 6-12 MONTHS!**
