**[Registration Link](#)**

## **BE PREPARED TO RECOGNIZE AN OPIOID OVERDOSE AND ACT**

TRAINING SUPPORTED BY THE STATE OPIOID RESPONSE (SOR) GRANT  
ADMINISTERED BY THE IOWA DEPARTMENT OF HEALTH AND HUMAN SERVICES  
FUNDED THROUGH THE SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION (SAMHSA)

**NALOXONE WILL BE ONSITE AND AVAILABLE FOR DISTRIBUTION  
PROVIDED BY STATE OPIOID RESPONSE GRANT COORDINATORS**

### **UNDERSTAND**

- What opioids are and how they impact physical functioning
- Opioid misuse consequences
- What Narcan (Naloxone) is and what it is used for
- How to obtain Narcan and administer it properly

### **IDENTIFY**

- Common prescription and illegal opioids
- Strategies for preventing and addressing opioid misuse
- Overdose risk factors
- Signs of an opioid overdose

If someone you know takes opioids or prescription opioids, such as oxycodone or hydrocodone for pain, be prepared for a possible life-threatening opioid overdose emergency.

NARCAN® is a potentially lifesaving medication designed to help reverse the effects of an opioid overdose in minutes. Since most opioid overdoses occur in the home and are most often witnessed, having a NARCAN® rescue kit nearby can make all the difference.
