

**APPLICATION DEADLINE IS SUNDAY, APRIL 7, 2024**

## ABOUT Y-EXCL

Y-ExCL Summer is a paid, 10-week work-based experience for individuals 14-21 years old to develop and strengthen employment skills while also learning about education and training necessary for future goals. Successful completion of a mandatory 2-week pre-employment training is required in order for students to receive job placement. All students applying must have their own reliable means of transportation in order to make their program experience a success. Our program can only provide transportation assistance via Bus Pass.

For two weeks, participants will be trained in the core competencies of proper workplace ethics, communication, attire, and time management. They will receive training in financial literacy, financial tools, asset building, entrepreneurship, post-secondary processes, and resume-building. Additionally, youth will understand the value of being work-ready and prepared to be a leader in their own lives.

After successfully completing the 2-week training, students are matched with one of our Partnered Employers and work Monday- Thursday, for a total of 20 hours per week earning \$12.00 an hour. Fridays are reserved for programming that will consist of college tours, service learning projects, and other enrichment activities with peers. The job placement opportunities range from office/administrative duties, inventory flow and control, maintenance, facilities, childcare, event planning, customer service, marketing, warehouse and logistics, and retail.
